About your local community college

Myth No. 3

The people who go to Delta are the ones who can't get in anywhere else.

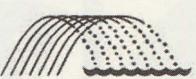

Wrong! All sorts of people go to Delta. In fact, we are the first choice of area high school seniors over the next five colleges combined. We continue to draw the highest percentage of high school grads with grade points over 3.0. We offer honors programs, business courses, automotive technology, computers and calculus, and most everything else you can imagine.

We have a better record than a lot of four-year schools on the licensing exam for registered nurses. In fact, "U.S. News and World Report" (that's a magazine your parents read and you used in a footnote once in your sophomore year) reported the community college graduates perform better academically than the native university students. See, it's just not hype!
